DRAGON WARRIOR III'S TALE

Many years ago, the kingdom of Aliahana ruled the world. Although its former influence has diminished, its people lived in peace. That is, until the rise of the Demon Lord Baramos...The kingdom's great hero Ortega embarked on a journey to defeat Baramos, but was said to have perished from a plunge into the maw of a volcano.

Over a dozen years later...A single youth strides purposefully into the castle of Aliahana. The youth is the hero Ortega's only child. The king, recognizing the youth's determination to succeed the fallen father, commands, "defeat the Demon Lord Baramos."

You are the young hero of Aliahana. Assemble a team of trusted companions for a spectacular quest to save the world from the terrors of the Demon Lord Baramos.

Let the adventure begin!

THE CAST OF ADVENTURERS

On the quest to defeat the Demon Lord, you need to assemble a four-person party of compatriots. When choosing your party, you pick from eight character classes, each with different abilities and attributes.

THE HERO The Quest Leader

The quest's main character. That means you. You possess a balanced mix of offense and defense, and the ability to cast unique spells. Obviously, you're the leader of your small party of adventurers.

WARRIORS Combat Specialists

Experts in physical combat using weapons. While they can use heavy, powerful weapons and equipment, they cannot cast spells.

FIGHTERS Human Lethal Weapons

Fighters rely on their lean, muscular bodies to deliver punishing punches. They won't wear heavy protective gear, so they can move quickly. Their chances of scoring critical hits in battle increase with their level.

MAGES Users of Attack Spells

Mages cast powerful spells to mow down monsters. They are physically frail, however, so they are not to be relied upon for physical attacks.

CLERICS Disciples of the Gods

As evil-hating followers of the gods, clerics can cast healing and reviving spells that are imbued with holy power. They are physically stronger than mages, and are capable of some physical combat.

THIEVES Extreme Survivalists

Thieves are experts at exploring the unknown. They possess abilities that make them invaluable to your quest. For example, they can identify the locations of hidden treasures in caves and towers. They also may steal items from monsters in battle.

DEALERS Utterly Fearless Merchants

Dealers have the uncanny knack of earning a little bit more money from battle than the others. They are also the only people who can appraise unknown items. At the start of the quest, they are comparable to the hero in abilities.

JESTERS Happy-go-lucky Clowns

Silly pranksters whose only source of pride is their luckiness. In battle, they may ignore your wishes to do whatever strikes their fancy. They learn new ways of fooling around when they level up.

SAGES The Chosen Holy Ones

The ultimate spellcasters, sages can cast all the spells of mages and clerics. What's more, they can also use powerful weapons. It's not easy to become a sage. It requires special dedication.

LET'S FORM A PARTY!

Out of the nine classes shown, you are the hero. That leaves eight classes from which you must choose your three companions. While you are free to form any party, consider the abilities of the various characters and how they will complement each other in battle. Also think about how your party is lined up—the character at the head of the line is the most likely to be hit in a battle.

LEVELING UP – POWERING UP

You and your companions grow by gaining EX points (experience points) in battle. By earning set amounts of EX points, your characters level up. Every time a character levels up, his or her basic stats such as "STR" (strength) and "AGL" (agility) may rise. The ways in which the stats rise upon leveling up depend on the character's class and personality.

Ryan was promoted to Level 8!

CONTROLS

Before you rush off on your quest to vanquish the Demon Lord, take a couple minutes to learn the basic button controls.

CONTROL PAD

MOVING THE HERO'S PARTY

On the field, in towns, dungeons and so on, this is used to move the hero's party around.

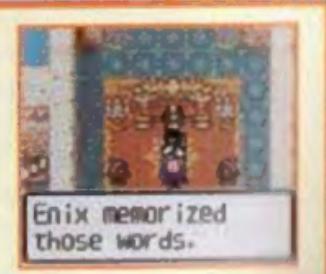

* This is the town of Aliahan.

SELECT

OPEN MAP

When your party is in the field, press to display the world map. Press it while the map is open to cycle through the three modes showing the present location, the location of the ship, and the map alone.

Enix memorized those words.

MEMORIZIZE SPEECH

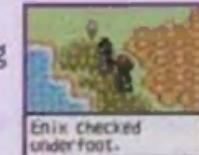

Press this in towns, castles or other locations to make the hero memorize the last conversation you had with another character.

ACTION BUTTON

This is a convenient, all-in-one button for talking to people, opening doors and examining things.

A BUTTON

Press it where there is nothing in front of the leader, and the leader will check underfoot.

Enix checked underfoot.

CONFIRM COMMANDS
It's also used for confirming commands and selecting spells and items.

OPEN THE COMMAND MENU

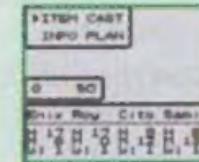

While walking, pressing this opens the command menu.

B BUTTON

CANCEL COMMANDS

Press this button to cancel your previous selection (one that has been confirmed by the A Button),

and return to the previous menu window or resume your quest.

START

PAUSING THE QUEST

Except in battles, you can take a break from your quest by saving your progress in the Field Log.

Just press this button while walking. It may not be possible to pause your quest in certain situations.

Check page 9 for details on the Field Log.

Record your quest in the Field Log?

STARTING YOUR QUEST

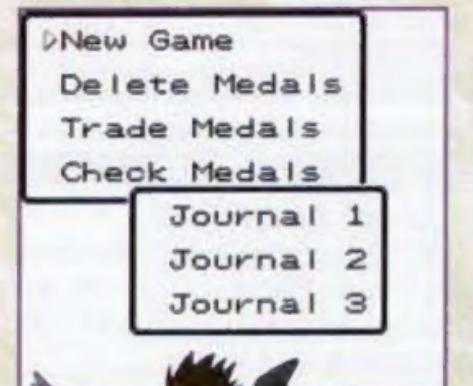

You are about to embark on a long journey of adventure. So learn how to manage your quest!

STARTING A NEW QUEST

If you're playing for the first time, you have to make a Journal to record your progress. Select "New Game" and choose one of three Journals. After you name your hero, your quest begins!

CONTINUING A QUEST

If you have paused your quest, you will be told that a Field Log exists. You can start where you left off from the Field Log by choosing "Yes." By choosing "No," you will resume your quest from the saved Journal. You may also start from a Journal by choosing "Continue," then choosing one of the three Journals.

OTHER MENU ITEMS

- **OPTION** Select to adjust the message display speed on an 8-step scale.
- **COPY FILE** You can copy one Journal to an unused Journal.
- **DELETE FILE** You can delete a selected Journal. Be careful—once you delete a Journal, its contents are gone forever.
 - Delete Medals
 - Trade Medals
 - Check Medals

Check page 35 for details on the Medal related menu items.

▲ You can save to a Field Log virtually anywhere.

ENDING YOUR QUEST

When you're taking a break from your quest, make sure you save your progress. You can end your quest in two ways.

Ending a quest with a Journal entry

Talk to a king in his castle and he'll record your quest in a Journal of your choice. After making the Journal entry, the king will ask if you intend to leave right away. Reply, "Yes," to keep going. Reply, "No," to take a break from your quest. Later, you can resume your quest from where you left off by choosing the Journal in which you recorded.

Ending a quest with a Field Log entry

Except in battle, you can record your progress in a Field Log whenever you like on your quest. Just press START to open the Field Log window and reply, "Yes," to the query, "Record your quest in the Field Log?" You can't save to the Field Log in a battle. It may also not be available in certain situations. Beware, a Field Log is deleted once you resume a quest from it.

V

PERSONALITY

The hero and companions have personalities. A character's personality influences the way he or she grows.

YOUR PERSONALITY?

The personalities of your party companions are determined by the adventurer's registrar, who we'll get to later. Your own personality is deduced at the start of your quest. Just reply truthfully to the questions posed by a mysterious voice.

THE FINAL QUESTION

For the final question, you are suddenly whisked away to an unknown place where you will be faced with an interesting situation. Do as you see fit. That determines your personality.

ONCE THE PERSONALITY IS DETERMINED...

You can check the basic stats of your character using the INFO command. The character's personality determines which stats are more likely to rise. Be aware that personality can be changed by how you behave in certain situations or by using an item.

It's time to set out on your quest! After obtaining the king's blessing, go back to the town to gather companions, equip the party and ready supplies.

IN CASTLES AND TOWNS...

Walk up to people and press the A Button to converse with them. If you hear something important, press the SELECT Button to make the hero memorize it. The hero can "Recall" what was said later on.

Check things!

Look for dressers and vases. Check them out; they sometimes hide items or money. Stand in front of one and press the A Button to check.

Bookshelf

• Weapons and armor shop

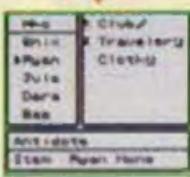

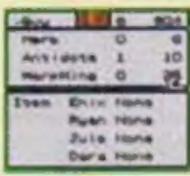

This is a shop that sells weapons, armor, shields and other equipment. When buying, make sure that you're not buying something that isn't useable; what can be equipped varies from class to class.

• Item shop

A shop that sells useful items. There are also general shops that sell items, weapons and protective equipment.

BUYING ITEMS

Talk to the shopkeeper and choose whether you're buying or selling. This is what happens when you're buying.

WHAT WOULD YOU LIKE TO BUY?

The merchandise mix varies from shop to shop. If a shop carries many items, you can change the merchandise menu by pressing right or left on the Control Pad. At item shops and general shops, you can buy up to nine of a chosen item. After selecting the item, choose how many you want by pressing right or left on the Control Pad.

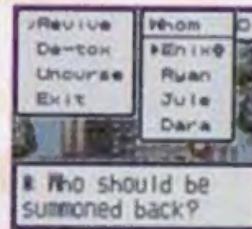

WHO IS THIS FOR?

Pick who should carry the item(s) you just bought. A weapon or protective equipment can be equipped on the spot. If the selected character has no room for items, the shopkeeper can move all unequipped items to the Bag.

• Temple

If you're in a dire situation, a temple could help you with their divine powers. If any of your party members die, scoot over to a temple right away. Be aware, however, that temples require donations to do their work.

WHAT A TEMPLE CAN DO FOR YOU

REVIVE

A fallen character can be brought back to life. The amount of donation required depends on the fallen character's level.

DE-TOX

Anyone poisoned in battle can be cured.

UNCURSE

Cursed weapons and equipment can be removed from the affected character. The item is destroyed when it is removed, however.

LOCKED DOORS

Thief Key

Magic Key

Final Key

Naturally, you need a key to open a locked door. There are three kinds of keys. If you have the Final Key, you can open any door. But at first, you should look for the Thief Key.

GOLD BANK

If your party is wiped out in a battle, you lose half your money. To avoid that added pain, you should save money in the Bank. You can deposit and withdraw money freely in 1,000G increments.

RUIDA'S TAVERN

"A place of hellos and farewells where travelers gather in search of companions." The Tavern is where you find companions for your quest. To get your quest going, have a chat with the lady at the counter.

THE TAVERN'S SERVICES

RECRUIT

Use this command to add members to your party from the tavern's patrons. Use the Control Pad to select a character from the roster, then press the A Button to add the character.

DISMISS

Select the character you want to dismiss from your party and leave him or her at the Tavern. With the exception of what is equipped, all items that are in the character's possession are moved to the bag.

ROSTER

Select this command to check the roster of characters at the Tavern. Select a character and press the A Button to check his or her stats in detail.

Check page 19 for details on status data.

EXIT

Select this command to leave the Tavern's counter. You can also press the B Button to exit.

REGISTRAR OF ADVENTURERS

At Ruida's Tavern, you can initially find three potential companions: a warrior, cleric and a mage. If you want other characters in your party, go upstairs in the Tavern and see the Registrar. He will help you register new adventurers in the class and gender you choose.

Find unique companions

To register a new character, speak with the Registrar at his counter. He'll ask you for the character's name, gender and class.

Five seeds determine the personality

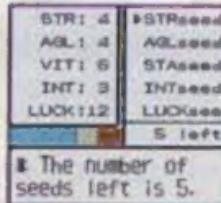

Once you've found your desired character, you can use five seeds that affect the personality of the character. These seeds are gifts from the king to help you get started. You can either choose to pick the seeds yourself, or let the Registrar pick them for you.

After registration

Once the character is made, the Registrar will ask you if he or she should be registered in the roster. Answer, "Yes," and the character is added to the roster so that he or she can be added to your party downstairs in the Tavern.

◀ Have the Registrar find you companions that fit your requirements.

◀ How the five seeds are used affects the personality of the character.

◀ Once registered, the character can be recruited into your party at Ruida's Tavern.

STANDARD COMMANDS

For progressing in your quest, you must learn how to use commands. In this section, the standard commands are examined.

FOUR BASIC COMMANDS

In most situations out of battle (such as in a town, or out on the field), pressing the **B** Button opens the command menu. Select the desired command using the Control Pad and confirm it using the **A** Button.

STAT DESCRIPTIONS

- LV (LEVEL)** Indicates the character's overall experience level. It rises as the character gains EX (experience) points by defeating monsters.
- HP (HIT POINTS)** Indicates the character's health. It is lost through battle injuries and poison. If it drops to zero, the character dies.
- MP (MAGIC POINTS)** The power used for casting spells. It is depleted when spells are cast. Spells can't be cast if there isn't enough MP.
- STR (STRENGTH)** Strength rises with the character's level. Obviously, the higher it is, the higher the attack power (and hence more damage to the attacked monster).
- AGL (AGILITY)** This indicates how quickly the character can move. The higher it is, the faster the character can attack. It also adds to the DEF (defense) rating of the character.
- VIT (VITALITY)** This indicates how sturdy the character is physically. The higher it is, the more likely the character's maximum HP will rise.
- INT (INTELLIGENCE)** Indicates the character's level of intelligence. It is strongly linked to MP. The higher it is, the more likely the character's maximum MP will rise.
- LUCK** The higher this is, the less likely the character will be affected by spells such as those inducing sleep or paralysis.
- EX (EXPERIENCE)** The total amount of EX (experience) points earned by defeating monsters. Upon reaching certain EX points the character's experience level rises.
- ATK (ATTACK POWER)** ATK is the sum of the character's STR and the equipped weapon's attack rating. The higher it is, the greater the damage the character can inflict with each hit.
- DEF (DEFENSE POWER)** The character's overall defense rating including the defense provided by the equipped protective equipment. The higher it is, the lower the damage to the character when hit in battle.

CAST

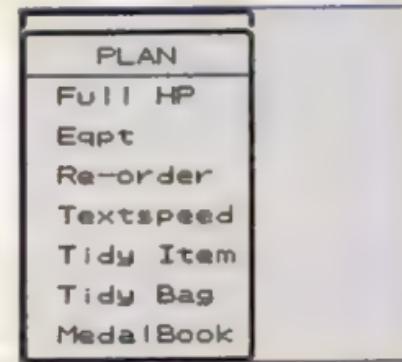

Use this command to cast a spell that can be used while walking. By selecting the character to cast a spell, the character's list of useable spells is displayed. By moving the cursor to a spell, the amount of MP it requires, the remaining MP and the spell's effect are shown.

▲ Spells that can be used only in battle are not displayed.

PLAN

This command is used for accessing seven subcommands for performing a variety of functions such as re-ordering the characters in the party and fully restoring the HP of all party members. They are useful for making your quest a little easier, so it's suggested that you learn how they work.

▲ Learning the seven subcommands will help you.

PLAN SUBCOMMANDS

► **FULL HP** This subcommand makes one (or more) party members use spells to automatically heal everyone. Naturally, MP will be consumed.

► **EQPT** Weapons and protective equipment are useless if they are not equipped. Use this command to equip your party members. Choose the character, then equip him or her in this sequence: weapon, armor, shield, headgear and accessory.

When you're outside of towns, in caves or in towers, monsters will appear without warning and challenge you to battle. Fight them by issuing the appropriate commands to your party members.

BATTLE SCREEN

In battle, each time the enemy hits, some of the party members will lose HP. If a member's HP drops to zero, the character dies. Use Herbs or other items, or healing spells to restore depleted HP.

MONSTER MEDALS

When monsters are defeated, they will leave money, and occasionally items. At times, a monster will leave a medal featuring the monster's relief. This is known as a Monster Medal.

For details, refer to page 35.

POISON

When poisoned, a character loses HP while walking. Poison can be cured by using the Antidote item or the Antidote spell.

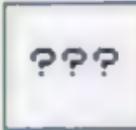

PARALYSIS

This problem makes it impossible for a character to move in battle. It can be cured by a Moon Herb or the NumbOff spell. It may wear off while walking.

CURSE

When cursed, misfortune could befall the affected character. The spell CurseOff is used to lift a curse.

CONFUSION

A confused character will attack friends and foes indiscriminately. Confusion can be cleared up by hitting the affected character. Confusion is lifted when the battle ends.

DEATH

A character can be brought back to life with a World Leaf or by using the Vivify or Revive spell.

CHANGING CLASSES

At a certain point in your quest, your party members can change their classes. You should learn how class changes work before you make rash decisions.

HOW CLASS CHANGES WORK

How do you do it?

To change classes, your party must visit Dharma Temple. Party members who are deemed to have become sufficiently skilled in their classes are permitted to change classes. However, the hero, who has been entrusted with a special mission, is not permitted to change classes. Also, the other party members cannot change into a hero.

BASIC CLASS CHANGE RULES

You must be sufficiently skilled

A character cannot change classes if he or she has not become sufficiently skilled in his or her present class. Characters must train in their present classes until they are recognized as having gained enough experience before changing classes.

Learned spells are retained

Characters will not forget any spell they have learned before changing classes. Spells learned in a previous class can be used after a class change.

Stats are halved after changing classes

When a character changes classes, his or her basic stats such as STR and AGL are halved.

All new classes start at Lv 1

When a character changes classes, he or she must train in the new class from level 1 again.

Having three party members change classes at the same time might be tough.

A special class

Becoming a sage

A sage has incredible powers. However, not everyone can become a sage. To become a sage, a special ritual is required.

Your hero and party members learn many useful spells that aid them on their quest. In this section, the spells are described.

THE TYPES OF SPELLS

CATEGORIES OF SPELLS AND HOW THEY ARE LEARNED

The hero and the party members learn many spells on their quest. There are a variety of spells in several categories such as attack spells that inflict damage on monsters, and healing spells. Spells are learned by specific classes, so it's necessary to stick with certain classes if you want to learn spells.

PACHISI TRACKS

There are gigantic pachisi tracks on which a party member becomes the playing piece. If the member successfully reaches the end, there could be amazing rewards to be had.

FIRST, YOU NEED A TOKEN

To play a round of pachisi, you need a Token. First, find a Token and present it to the attendant.

► Only one person may enter.

How to play

Like a regular steeplechase game, you roll a die and move on the course. The squares on which you land trigger a wide variety of events. You may find money, obtain an item, set off a trap, or even summon monsters. You'll have to rely on your intelligence and pure luck to make it to the goal.

► The player's status may even change.

► Advance by rolling the die.

► FIGHT ITEM EQUIP CAST PARRY RUN

► Be careful — try to avoid a needless tragedy.

DESCRIPTIONS OF COMMANDS

► ROLL Select this command to roll the die and move your character.

► MAP Use this command to examine the track on the current floor.

► INFO Select this to check the player's status. Because monsters can appear with no warning, keep track of your HP.

► EXIT You can abandon your pachisi game any time. However, you won't get your Token back.

MONSTER STADIUMS

There are several monster stadiums around the world. They are secret clubs where people gather to bet on battling monsters.

★ Buy a Ticket as your bet

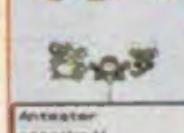

To place a bet, you must buy a Ticket. You should consider the odds that are listed for the battling monsters before you place your bet.

| | 815 |
|------------|-----|
| Froggoro | 2.9 |
| Anteater | 3.7 |
| StringHead | 2.0 |

▲ Place your bet on the monster you think will win.

strongest monster's payout odds will also be relatively low. There is also no guarantee that the strongest monster will win. You should look at the combatants first, consider the likely outcome, and then place your bet.

▲ A wild monster battle begins.

If the monster you bet on wins, you earn back what you bet multiplied by the payout odds.

THE MEDAL COLLECTOR

You can find Tiny Medals scattered throughout the world. Somewhere in the world is a rather eccentric man who collects them.

Who is he?

The Tiny Medal collector is a total enigma. No one knows his age or his true identity. There are rumors that he comes from a very distinguished background, however.

Exchange Medals for prizes

Collect Tiny Medals on your quest, then take them to the collector. He will gladly exchange them for attractive prizes. The more Tiny Medals you collect, the better the rewards. That's why it never hurts to look around.

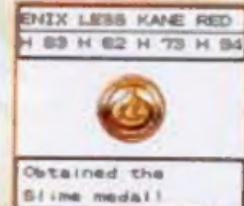

MONSTER MEDALS

WHAT ARE MONSTER MEDALS?

In rare instances, when defeated, a monster may also leave a medal with a relief of its likeness. That is a Monster Medal.

How many are there?

Every monster in the world has Monster Medals of its own. That means there are over 150 different kinds of medals. What's more, Monster Medals come in three grades, Gold, Silver and Bronze. If you manage to collect more than 150 different kinds, something happens. But, you'll have to see for yourself.

connected, and choose the Give Medal command. Up to three Medals can be selected for trading. If you don't select any Medals of your own, you would be receiving

your friend's Medal(s) as a gift. Once the Medals are chosen, select "End" to complete the trade.

Check Medals

When this command is chosen, a list of all collected Monster Medals is shown. Move the cursor to any monster name, and the Medal is shown along with the monster's habitat. Pressing the A Button will also show the numbers of Medals that you have collected for that given monster in the three different grades, Bronze, Silver and Gold, from left to right. Once collected, a Monster Medal's artwork data is retained even if the Medal has been traded away.
